Importance of Debating Skills for Law Students

As a lawyer whether you are negotiating a contract or defending a client in court, the ability to articulate your client's position in a persuasive manner is always helpful. According to the Greek philosopher Aristotle, Justice means giving people what they deserve. But the real question should begin when we argue about who deserves what and why and therefore; for a law student, it becomes imperative to develop the art of arguing. The art of debate involves mastering skills of obvious intrinsic value: the confidence to speak in public, the construction of a logical argument; the ability to read an audience's reactions; and, perhaps most importantly, the willingness to hear others' arguments, and to respond to them.
